## What could the application process look like?

Following your application, MEA will need to verify your eligibility for the scheme. If you qualify, the Council's chosen contractor will book in a date to survey your property and will advise on what measures might be suitable. After the work is complete, MEA will follow up with an after-care call to help you maximise the benefits from the measures installed.

### Your household is likely to qualify if you meet these conditions:

-  You do not have a mains gas heating system (i.e., you may be using electricity, solid-fuel, oil, LPG to heat your home.)
-  You are an owner-occupier or rent your home from a private landlord\*
-  Your home has an Energy Performance Certificate (EPC) of D, E, F, or G
-  Your household's combined annual income is under £31,000 (before tax), or you receive a qualifying means tested benefit

\*Works are fully funded for owner-occupiers. However, private landlords will have to contribute to part of the cost of works. If you rent your home from a private landlord, please pass on this flyer, and ask them to contact us for more information.
